

Cookie Policy

Last Updated: September 19, 2026

This Cookie Policy explains how Shenzhen Towwind Technology Co., Ltd. ("Towwind", "we", "us", or "our") uses cookies and similar technologies on <https://tow-wind.com/> (the "Site"). It should be read together with our Privacy Policy.

1 What Cookies Are

Cookies are small text files placed on a device when a website is visited. Similar technologies, such as local storage, pixels, and software development tools, may perform related functions. Some technologies are necessary for a website to operate, while others support preferences, measurement, or embedded third-party content.

2 How We Use Cookies

Strictly necessary technologies may operate automatically because they are required to provide the Site, protect it, remember privacy choices, or process a form securely. Where applicable law requires consent, we use functional, analytics, advertising, or other non-essential technologies only after consent has been obtained.

Category	Purpose	Typical provider	Duration	Choice
Strictly necessary	Site security, network delivery, fraud prevention, form protection, session management, and storage of privacy choices.	Towwind, WordPress, hosting or security provider	Session or as stated in Cookie Settings	Always active where required for the Site
Functional	Remember optional preferences or enable requested features.	Towwind or feature provider	As stated in Cookie Settings	Used only where enabled and, when required, with consent
Analytics	Understand aggregated Site use and improve content and performance.	Analytics provider, if enabled	As stated in Cookie Settings	Used only when enabled and, when required, with consent
Advertising	Measure campaigns or tailor advertising across services.	Advertising provider, if enabled	As stated in Cookie Settings	Used only when enabled and with consent where required

The precise cookie names, providers, purposes, and durations shown in the Site's Cookie Settings control if they differ from the general descriptions above. Towwind will update that list when technologies change.

3 Embedded Content and External Services

The Site may contain links to or embedded content from services such as YouTube, Facebook, Instagram, and WhatsApp. A simple external link generally does not place the third party's cookies on the Site, but the third party may collect information after the link is opened. Embedded media may allow its provider to set cookies or receive device and usage information. Where required, such content will remain blocked until the visitor consents.

Third-party services operate under their own privacy and cookie notices. Towwind does not control the retention periods or subsequent processing performed by those providers.

4 Managing Cookie Choices

Where a cookie preference tool is available, visitors can accept, reject, or change non-essential cookie choices through the Cookie Settings link on the Site. Withdrawing consent does not affect processing that occurred before withdrawal. Browser controls may also be used to block or delete cookies, but blocking strictly necessary technologies may prevent parts of the Site from working correctly.

Towwind will respond to browser-based preference signals, such as Global Privacy Control, where required by applicable law and technically supported.

5 Retention

Session cookies normally expire when the browser is closed. Persistent cookies remain until their stated expiry date or until they are deleted. Towwind seeks to use durations that are proportionate to the stated purpose. Current durations are displayed in Cookie Settings when a cookie preference tool is enabled.

6 Changes to This Cookie Policy

We may update this Cookie Policy to reflect changes in technology, law, or Site operation. The Last Updated date will be revised when changes are published. Where a change affects a consent choice, we will request consent again when required by law.
